OutBack Power Systems Ships Large Order to US Army

ARLINGTON, Wash., September 14, 2005 – OutBack Power Systems, Inc., a leading manufacturer of rugged power conversion electronics, has shipped 117 inverter/chargers to the United States Army for use in mobile applications. As a follow-up to the successful operation of 50 inverters for 2 years in the Middle East, this shipment is the fulfillment of a new two-part order potentially exceeding a total of 600 inverter/chargers.

“The United States Army has selected the OutBack Power Systems line of inverter/chargers because of their rugged construction, reliability and field serviceable design,” said Jim Barbero, head of Industrial & Governmental accounts. “This is the start of a long and mutually beneficial relationship between the US armed forces and OutBack Power Systems.”

The inverter/charger product line manufactured by OutBack Power Systems in Arlington, WA is regarded by many to be the most rugged and technologically advanced battery-based inverter/charger product available. Integrating a true sinewave inverter with a multi-stage battery charger and AC transfer switch, OutBack’s inverter/charger is a complete power solution. A unique design permits field serviceability, allowing the operator to perform upgrades or service. The extensive inverter/charger line is comprised of product for a multitude of applications including off-grid, back-up, grid-interactive, RV, Marine and Industrial.

About OutBack Power Systems, Inc.

OutBack Power Systems, Inc. is a global designer and manufacturer of cutting-edge power conversion solutions that provide reliable electric power for the renewable energy, mobile and backup power markets. OutBack Power’s engineers have decades of power conversion electronics design as well as equipment installation experience and share a passion for leading the industry into a new era of performance, ease of use, and standardization. OutBack Power is a privately held corporation located in Arlington, WA USA with a European sales office in Barcelona, Spain.
